■ WE ARE GROWING FOR YOU!

Jan Długosz University in Częstochowa is one of the largest universities in the region boasting over 50 years of tradition and experience in educating specialists sought after on the job market.

The University offers tuition-free studies in the following fields: humanities, medical and health sciences, engineering and technology, pedagogical, social, legal, economic, natural, and agricultural sciences, as well as visual arts and musical sciences.

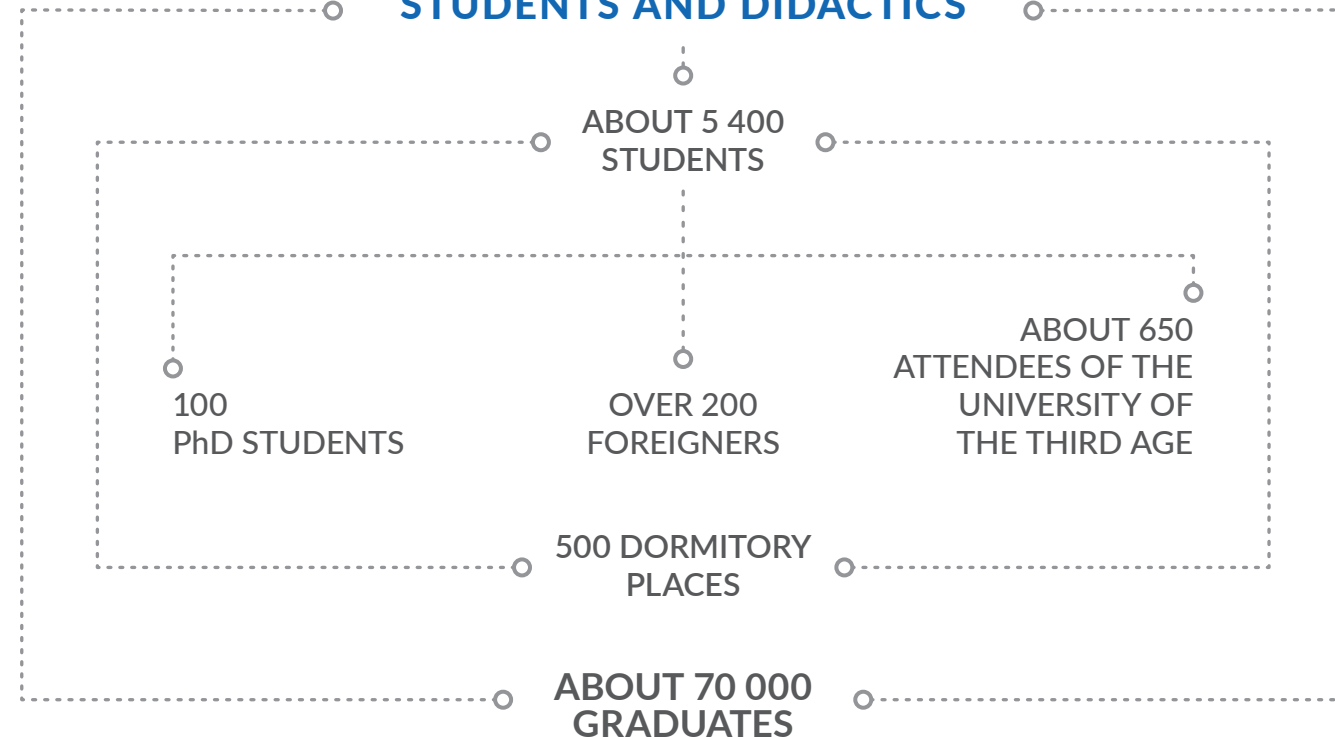

○ STUDENTS AND DIDACTICS ○

WHY SHOULD YOU STUDY AT JAN DLUGOSZ UNIVERSITY IN CZESTOCHOWA?

- We support students in the realization of their career aspirations through the application of state-of-the-art educational methods and practical use of knowledge.
- We place importance on the implementation of new research methods, active cooperation with the economy, and dynamic international collaboration.
- We create a strong institution recognized domestically and internationally which provides students with possibilities to fulfil their academic ambitions, develop their interests and skills.
- Our goal is to educate alumni who after leaving the University premises, will professionally and boldly build their professional future.

STUDENTS AND DIDACTICS

THIS IS WHAT WE OFFER OUR STUDENTS:

- attractive fields of studies, interesting specialities,
- tuition-free courses of additional foreign languages, including rare languages sought after on the job market,
- possibility of realization of internships and placements at renowned companies,
- participation in international exchange programs,
- modern studies and high quality of education – possibility to study in English,
- specialized laboratories,
- classes conducted by professional scientific and didactic staff,
- modern teaching methods modelled after the best European universities, such as academic tutoring,
- online forms of education thanks to e-learning methods,
- educational profile adapted to the job market,
- broad national and international cooperation,
- good social infrastructure,
- possibility of active participation in student life,
- perspective of further development at post-graduate studies.

■ OUR ACCOMPLISHMENTS

ASSETS:

University has highly qualified scientific and didactic staff,

University implements and promotes modern educational methods, such as tutoring, online learning, dual studies,

University has its own library, publishing house, sports center, modern infrastructure, dormitory, planetarium, and laboratories.

- University is one of the most important universities in the region, scientific achievements of employees bear the fruits in the form of modern solutions and innovations, new technologies and patents,
- University cooperates with Polish and several dozens of foreign academic institutions around the world,

ACHIEVEMENTS:

University holds a high rank in contests related to applications for funding for the realization of projects financed from European funds,

University employees, and students, including PhD students, gain national and international awards, distinctions and scholarships,

University employees successfully participate in contests announced by the Ministry of Education and Science, National Science Center and National Center for Research and Development, and achieve substantial funds for the realization of projects,

University employees' patents and inventions gain recognition among organizers of international exhibitions and competitions,

paintings and musical presentations by employees and students of the Faculty of Art are recognized with honors, distinctions and awards during exhibitions and contests organized in Poland and worldwide,

University achieves high citation rates of scientific articles registered in recognized databases, such as: Web of Knowledge and Scopus.

ENROLLMENT STEP BY STEP

REGISTER ON THE WEBSITE

www.rekrutacja.ujd.edu.pl

Fill out an electronic form and upload Your photo in JPG format in the Online Candidate Registration system (PL: Internetowa Rejestracja Kandydatów – IRK).

1

PAY THE ENROLLMENT FEE to the individual bank account generated in the IRK system by the deadline specified in the enrollment schedule.

2

ENROLLMENT COMMITTEE CONDUCTS A QUALIFICATION PROCEDURE

(exams, competitions, interviews) and announces the results of enrollment.

3

CHECK THE ENROLLMENT RESULTS IN THE IRK SYSTEM.

The candidate receives information of the enrollment result on his / her account in the IRK system.

4

DELIVER YOUR DOCUMENTS TO THE UNIVERSITY

Complete the required documents and submit them to the office of the Faculty Enrollment Committee by the deadline according to the enrollment schedule.

5

REQUIRED DOCUMENTS

CANDIDATES FOR FIRST-CYCLE, SECOND-CYCLE AND UNIFORM MASTER'S STUDIES SUBMIT

- a printed out and signed form (personal questionnaire)
- a copy of secondary school leaving certificate (original to be available for inspection)
- a proof of payment for admission to studies
- a candidate's up-to-date photograph according to the requirements applicable when issuing personal identification cards (IDs) and one photograph in electronic form (jpg)
- candidates for second-cycle studies submit a copy of their university diploma and a copy of the diploma supplement (original to be available for inspection)
- detailed information on the required documents is available in the IRK system at <https://rekrutacja.ujd.edu.pl/en-gb/news/>

In case of not reaching the admission limits (failure to deliver documents by candidates on the list of preliminarily qualified candidates), the completion of the admission limit shall further take place only based on the total score obtained in the enrollment process and a place on the ranking list. The candidate can regularly check the IRK system for information on university admission by using their identifier and password.

STUDY DIFFERENTLY!

MODERN APPROACH TO EDUCATION

TUTORING

Following the example of the best European universities, JDU students can choose classes with certified tutors who conduct classes in the field of academic and developmental tutoring. The system using methods of cooperation between a student and a tutor-master-companion provides an opportunity to discover student's strengths, allowing to enhance student's sense of agency and critical thinking ability.

INTERDISCIPLINARY VOLUNTARY LANGUAGE EDUCATION

Students, including PhD students, of each of the field of studies conducted at JDU can choose free of charge courses in foreign languages less frequently used in Poland, such as: Spanish, Portuguese, Italian, Czech, Slovak, Russian, Ukrainian (from the basic level). They can also learn within the extended curriculum in advanced English and German courses. Additionally, we offer sign language courses for volunteers. Language competences in the area of rarely used foreign languages are sought after on the job market.

DESIGN YOUR FUTURE

ON-LINE EDUCATION

JDU academic teachers are prepared to conduct classes using remote education methods and e-learning forms. This modern method of conveying knowledge allows to conduct a course, training, or even entire studies without personal attendance of students and lecturers in the lecture hall, as classes take place via the Internet.

■ IMPROVE YOUR QUALIFICATIONS ON THE JOB MARKET!

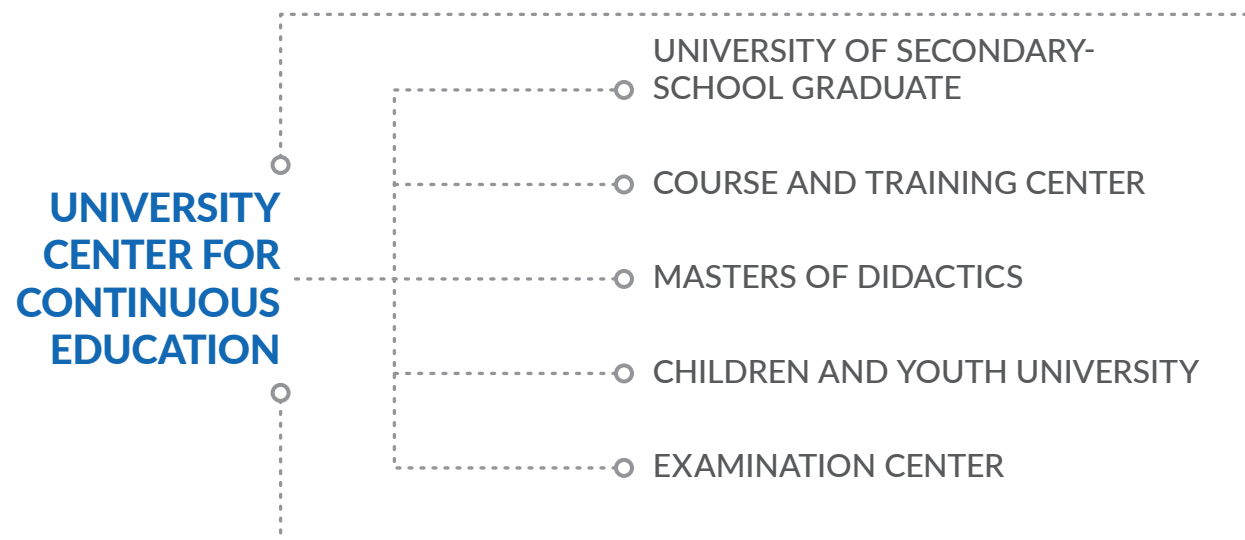

In consideration of those planning to change their employment or willing to continue education upon completion of studies, University Centre for Lifelong Learning of Jan Długosz University in Czeŝtuchowa offers, as follows:

- language courses,
- postgraduate studies,
- training and improvement courses,
- trainings,
- lectures, seminars, trainings and conferences in fields not provided by other entities.

The Center cooperates with academic institutions and other domestic and foreign educational, social, economic and cultural organizations and institutions fulfilling similar goals, as well as promotes activities related to continuous education.

More information can be found on the website:

www.ucku.ujd.edu.pl

STUDY DIFFERENTLY!

■ MODERN APPROACH TO EDUCATION

STUDY AND PRACTICE ABROAD

- our University conducts projects which give the opportunity of studying abroad
- nearly 200 cooperation agreements with foreign institutions, including over 50 agreements within the Erasmus+ program
- partnered institutions in over 30 countries
- JDU hosts about 450 foreigners per year, half of whom are students
- about 120 people, employees or students, travel abroad within the Erasmus+ program each year
- participation in international exchange programs: Erasmus+, KA131 and KA171, PROM, CEEPUS

INFORMATION FOR PEOPLE WITH DISABILITIES

The University implements the European model of interactive treatment of disabilities, according to which a person, regardless of health impairment, can undertake higher education. The condition is an individualized approach involving identification of difficulties caused by the given disfunction, and establishing methods of mitigating them, and then there are consequently implemented essential organizational solutions and technological adjustments. The entity serving as a support center for people with disabilities at JDU is the Office for People with Disabilities, whose competencies include, in particular:

- facilitating access to higher education for students with disabilities, including PhD students,
- adapting formal requirements to the needs of people with disabilities,

- removal of barriers as to access to information resources and didactic classes,
- designing and creating a support system for people with disabilities at the University,
- shaping favorable attitudes towards people with disabilities,
- organizing and conducting training courses, as well as educational and technical counselling for people with disabilities,
- making efforts to supplement the University's resources with equipment and new technologies facilitating studies,
- intervening, when necessary, with regards to people with disabilities,
- integration and promotion of environment of students, including PhD students with disabilities.

Office for People with Disabilities

SCHOLARSHIPS AND FINANCIAL AID

Scholarships are the primary form of financial aid for students. Scholarship award is dependent on study results or financial situation of student's family. The scholarship amount and income threshold that determines the amount of financial aid are specified each year in the University Rector's ordinance.

Students, including PhD students, with disabilities, holding an appropriate medical certificate, can additionally obtain a scholarship regardless of the amount of their family income.

In particularly difficult emergencies and financial situations, every student of our University can apply for one-time financial aid.

The rector's scholarships and ministerial scholarships for excellent accomplishments in studies serve as additional study motivation.

Detailed information on financial aid benefits can be found on the website:
